

Blood Disorder Research/Presentation Criteria

Task: Your job is to research the blood disorder you were given. With your research you are to write a paper and design a PowerPoint presentation which you will present to the class.

The Research Paper must:

- have an introduction
- include statistics regarding the disease
- identify the specific problem and the type of cells/tissue involved
- present the symptoms of the disease and any associated complications
- explain the treatment and prognosis of the disease
- have a literature cited page min. of 5 citations
- length should be no less than 4 pages: typed, double spaced size 12 fonts.

The PowerPoint must:

- be between 5 - 7 slides (including the title page)
- include only key words (avoid too much information/slide)
- hi- light the information in your research paper
- **Not be** distracting (sounds and transitions)
- include citations
- include some visuals
- be e-mailed to me prior to the due date (day before) so it can be reviewed.

The Class Presentation:

- should be between 8-10 minutes
- should include a question session
- should be a time for you to practice your presentation skills: body language, volume, clarity, making eye contact, etc.
- should **not** be you reading from your slides. You need to **know your material** and convince your audience that you are an "expert" on the topic.

Due Date:

February 26th paper is due and be ready to present. Presentations will start on Friday the 26th.
